Introduction

Narrowsburg is located at the Delaware River between the Catskill and the Pocono Mountains. Why do I think that Narrowsburg is a very quaint town? Why, because it has calm water all the time and you can go canoeing in the river all the time,. Also, even though the town is very small, Narrowsburg has up to 50 businesses and all of them are successful which means that the 50 businesses are great stores. They are all independent stores so we have no chain stores in Narrowsburg.

The Arts Building

Another good reason why Narrowsburg is very quaint is because they have a great small park with a gazebo and it hosts many weddings. One of the famous attractions in Narrowsburg is the Big Eddy Film Festival. And one of the very special places in Narrowsburg is the art gallery, which is called Arts Alliance. One of the best restaurants is Gerard's River Grill. It has a 5 star rating according to www.tripadvisor.org I remember the time I was at Gerald's River Grill, their food was great.

Narrowsburg is over 100 years old and has a long history.. Also the gallery is 40 years old and the first graduating class in Narrowsburg was in 1931. Over the years Narrowsburg has developed a strong arts and cultural community. Narrowsburg even has their own fishing company to fish on the Delaware River. One of my experiences in Narrowsburg was when I went to the furniture store and we bought the most comfortable chair ever.

Any time you're in Narrowsburg you can find beauty like all types of birds including a blue heron, fawn, and bald eagle. You should visit Narrowsburg sometime.
