

# SELF EXPRESSIVE SHOES

BY: ALEXANDRA BRILL

Shoes=true self-expression. People try to express themselves with clothes but that's not the only thing you can express yourself with. You can also express yourself with shoes. A lot of girls and boys already do it. It's a very natural thing. There are many ways to express your self with shoes and here are some of them...

I FEEL

One way you can express yourself with shoes is your mood. Your mood can determine the shoes you wear. For example, one of my pairs of shoes shows true self-expression. The shoes are sparkly vans with Velcro so you can put an emoji on the shoe and change it! They show true self expression because there are 7 different emojis that you can change based on your mood. Also, one of the shoes says I feel so it would be more straightforward what you were feeling. I was so happy when I got these shoes because I felt I could really express myself with them. It was like a whole new world. Now I feel I could express myself with any type of shoe. I love shoes and now I have a whole new variety because of my changing mood. Sandy from Dian.B believes, "Yes absolutely." This shows that people always use their mood. If you ever need some shoes to wear think about your mood and that might help you.

# STYLE

# CLASSIC FANCY

# COMFORTABLE AND STYLISH

The last way you can express yourself with shoes is you can DIY your shoes. For example, I used to have pink converse. I really liked them but I knew something was missing. It wasn't that they were the wrong size. It wasn't that they were the wrong color. But it was they were missing some sparkle. It never hurts to put a little sparkle in your step. That's when I realized that the way to show who I am, is to put some sparkle in my step. After I bedazzled my shoes people were asking me where I got them and I said I did it myself. I could really connect myself through these shoes. Another example of this is, [www.coppellstudentmedia.com](http://www.coppellstudentmedia.com) says "lots of kids love to paint your shoes now you can to express your personality." This shows that you can DIY your shoes by painting them. Another source I used was [www.trendhunter.com](http://www.trendhunter.com) "you can DIY your shoes based on your favorite food." This shows that you can DIY your shoes to express yourself. If you need to express yourself and you are an artist just DIY your shoes to whatever you want.

# STYLE FOR MEN

# COMFORTABLE TRENDS

Another way you can express yourself with your shoes is if you can make your own style or fit in with the latest one. For example, one day when I went to school I saw a lot of people wearing combat boots. This was going on for a couple of days and that's when I realized it was the latest style! When I got home I told my mom I needed to get combat boots. I finally did and I fit in with the latest style. Also, they were really comfortable and they were totally me. Sandy from Dian.B says, "We make our own style. It's very unique, and we find when we make our own style it works better for us." This shows that you can make your own style to express yourself. So remember if you need ways to express yourself with shoes just make your own style or fit in with the latest one.

All in all, these reasons show that there are limitless ways you can express yourself with shoes. So if you ever want to express yourself with shoes think back to these ideas and maybe come up with your own.
