A close-up, front-facing view of a subway train. The train is dark-colored, possibly black or dark grey. In the center, there is a large, dark rectangular window. Above the window, a red circular light with a white 'Q' inside is illuminated. To the right of the window, there is a circular logo for the MTA (Metropolitan Transportation Authority) with the text 'New York City Subway' below it. Above the logo, there is a small American flag. At the bottom of the train, two bright headlights are visible. The background is slightly blurred, showing what appears to be a subway station platform.

The Importance Of the NYC Subway

By: Westin Tse

The Importance of The Subway

The NYC subway is important to us because of many reasons. For example, the subway is fast, the subway is affordable, and the subway can take you anywhere in NYC. These are all ways that the NYC subway is important.

One reason the subway is important to us is because it is fast. Mary, a frequent subway rider, said “It’s the fastest way for thousands of people to get to work.” It is the fastest way because there is no traffic underground, but if you drive a car there is a lot of other cars and lights which makes cars have to stop and wait for the light.” The website *Freetourbyfoot.com* said “The subway system is a very effective way to get around the city. It may seem confusing when looking at the map, but as long as you know how to use it before you hop on a train you will discover how convenient the subway is.” That is very true. And Jimmy Tse, a subway rider, said there is a lot of traffic, and the subway gets you around very fast. Most of the time the subway is faster than a car.

Also the subway is affordable. Jimmy Tse also said “You can go from the Upper East Side to Coney Island for \$2.75.” I think that is very affordable because you can go anywhere in NYC for \$2.75. The website *Independenttraveler.com* said “If you’re planning a longer trip to the city, it’s often cost-efficient to buy a metrocard that gives you unlimited rides for a week or longer. The website *www.nycsubway.org* said “The subway is affordable for many people.” Yes, because the cost is only \$2.75.

Lastly the subway can take you anywhere in NYC. You can go anywhere from Brooklyn to Queens by the subway. Nelson a often subway rider said “You can go anywhere in NYC with a metrocard.” This means you can go anywhere with just a metrocard.

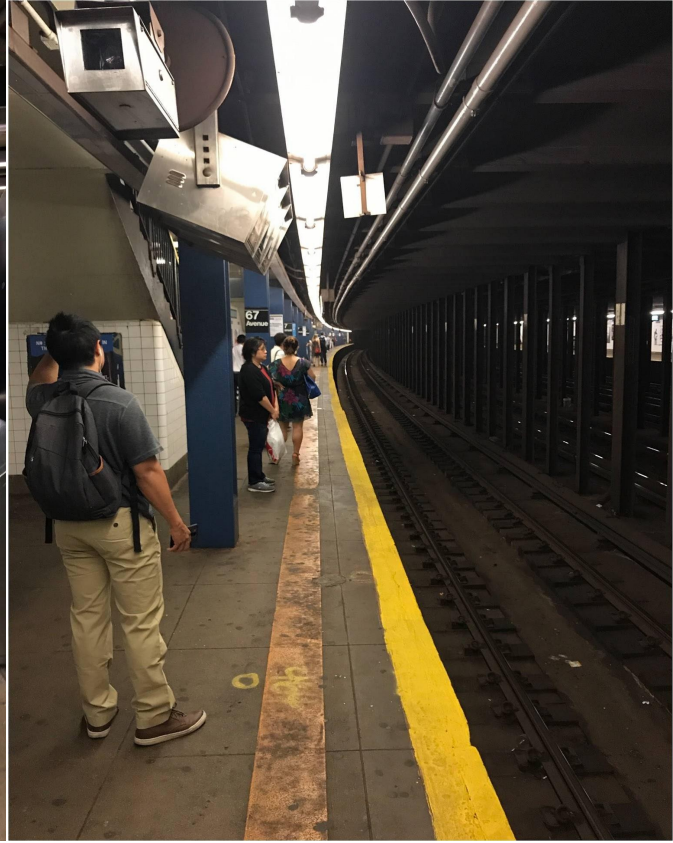

That is why the NYC subway is important to us because it is fast, it’s affordable, and it can take you anywhere in NYC. If NYC had no subway there would be traffic every where all day and much more car accidents. That is why the nyc subway is important.

The trains rushing to the station.

Rush
hour all
over
town.

How to get to the subway at any time of the day. Copy these steps.

There are many subway stops in NYC.

If you are looking for a subway station you will have to find this.
