

# ART WORK ALL AROUND US

By Aashtha Amin

MANY PEOPLE GO TO THE METROPOLITAN MUSEUM TO SEE ART  
BUT REALLY IF YOU OPEN YOUR EYES ART CAN BE ANYWHERE.

When you  
open the door  
to get into  
Starbucks what  
you might not  
notice is the  
sign on the  
door and how  
**ARTISTIC** it is.

If you walk d

o

w

n to Carl Schurz park, do you

ever notice the sign on the gate?

At the C  
O

R N E R of 2<sup>nd</sup> avenue and 80<sup>th</sup> street  
there is graffiti on a building. The words are in  
cool looking writing.

This picture is inspired by Claude Monet who was a painter born in Paris. The picture above shows what could be painted and considered **ART.**

When I walked down a street I saw a bunch of pots like  
the one

o  
b v

a e. The design on the pot really pops out.

In fact if you look at the entrance of our school,  
there is art on it too!!

Have you ever gone to a museum to look at art? Well you don't have to do that because I learned that art can be found anywhere.

Art is very expressive, creative, and interesting when you look at it closely.

What I like about it is that you can use your imagination. One reason I chose this topic is so you can be inspired to look around your neighborhood and really pay attention to the different types of art.

The oldest piece of art known was in a cave in Indonesia. It was similar to what is now known as graffiti and looked like a human hand. Scientists don't know much about it but it was made by a human many years ago. Art has been here for a long time and we should continue to progress at it. After all that I learned art can be anywhere if you just imagine.
