

# **THE MUSEUMS OF NEW YORK**

By Luka Vujic

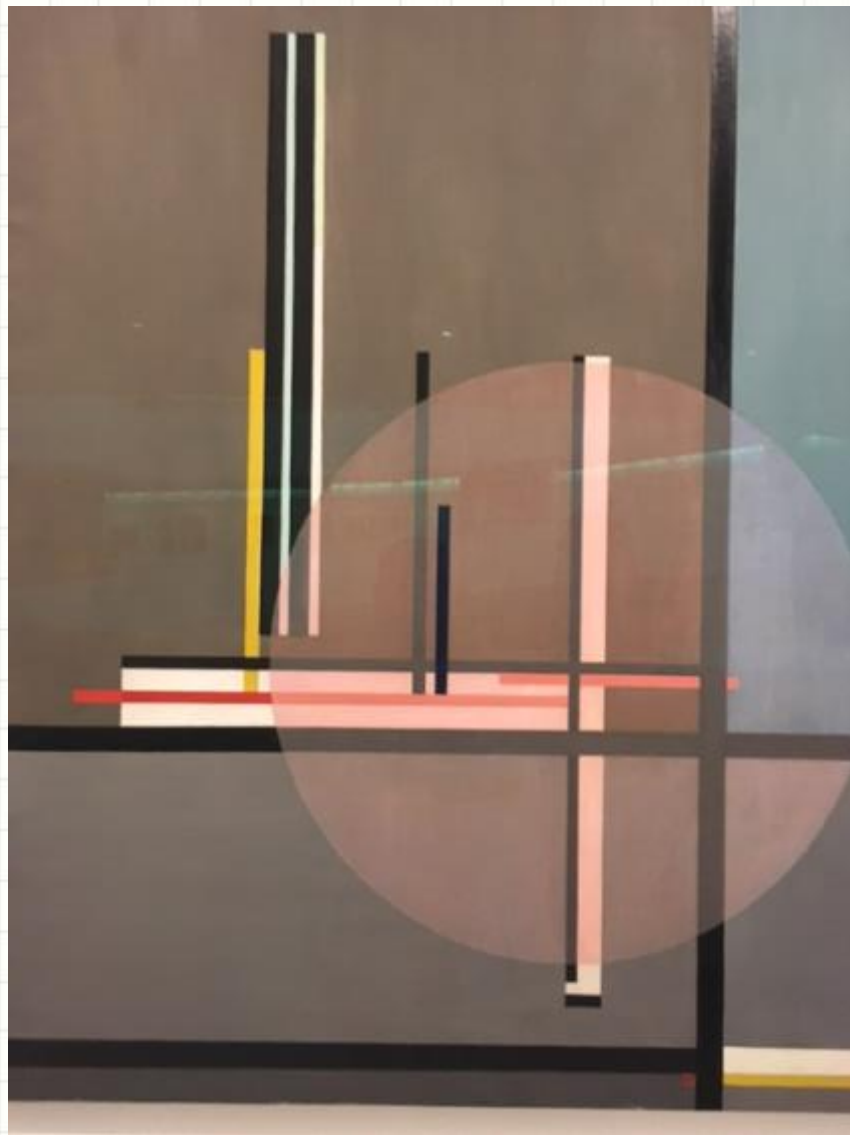

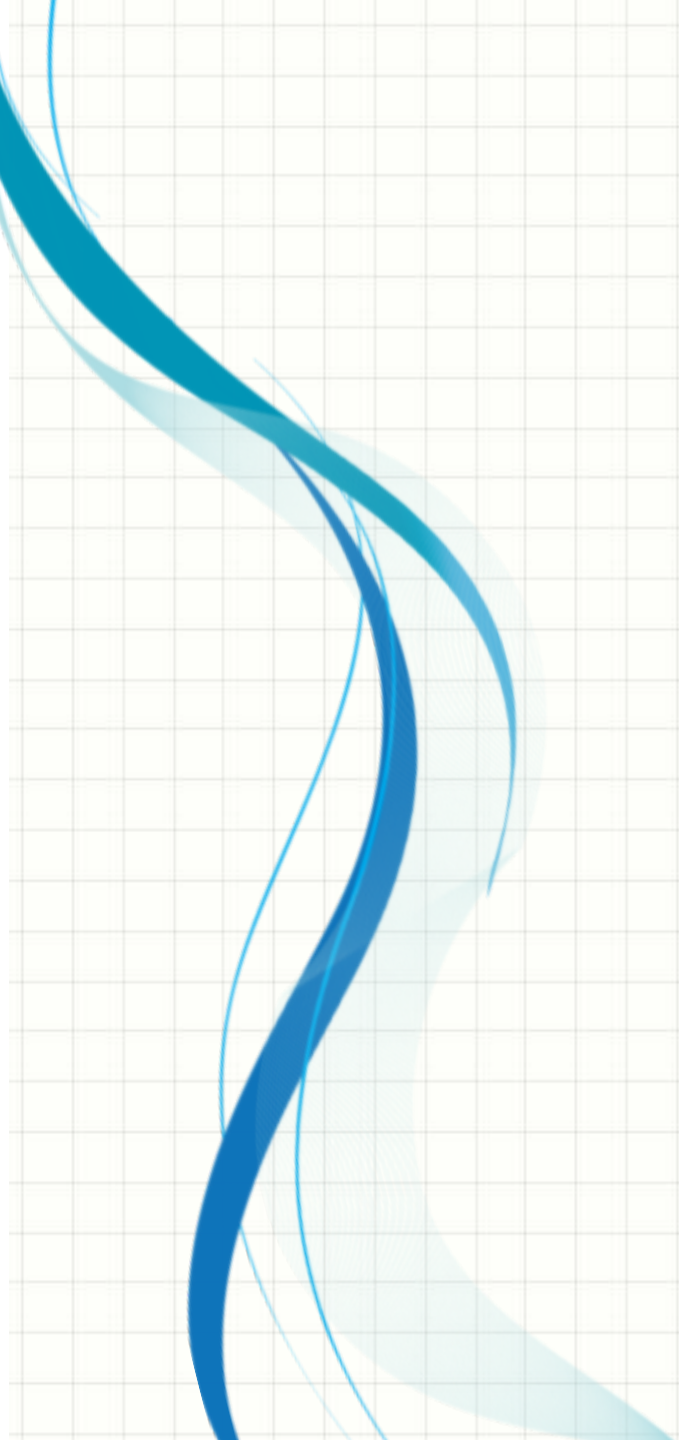

This is the Guggenheim Museum of art.

This is one of the sculptures that you can find in the Samuel J and Ethel Lefrak Gallery.

This is a cool optical illusion I found in one of the many galleries!

This work of art is called  
“Lis”. It was made by putting  
oil and graphite on a canvas.

**This is Pablo Picasso's work. He is one of the most famous painters.**

**This is Paul Cézanne. He was a French painter.**

**This is Paul Gauguin, another French painter.**
