FANGTASTIC!

Dracula 500
YEARS ago

Many people don't believe in Vampires.

Normally they take it as a joke when you say that they exist and they call them a "Myth!!!"

But they never cared to take time and learn about them, explore them! They never wanted to learn about their side of the story. In this article you will see what it was like much before you were around! You will see what it was like in Romania in the 1500s. See? I told you that it was a long time ago! But don't worry when you're done reading this article... you'll know much more than you thought you did! Your going to have a Fang-tastic time!

Count on it! ☑

A Romanian Relation

In the 1500s the Romanians where terrified!

Legend said that when-ever a very bad person (Or at lest a person that was bad enough) died, they would turn into something that all the Romanians feared. They would come back from the DEAD!

HEY!!! DON'T START LAUGHING AT ME! THIS IS STRAIGHT TRUE FACTS! YOU HEAR ME?!?!

But they didn't come back as Ghosts, Or Zombies or that lot! They came as Pale skin Blood sucking Vampires. But they weren't very nice you know!

So what did the Romanians do to try and stop the Vampires? Well I'll tell ya!

Scientists think that this could be a being that could of been a vampire! But where is the Iron Stake to stop the Vampire? WEIRD!!!!

This is one of there most feared Vampires of all time... Dracula.

This is him in Romania in the 1500s!!! :<

A Biting Experience

Now the Romanians wanted NO part of living in a Vampire Where-house. At all!!!

The Romanians thought that there were way too many people dying too fast. So what the Romanians did was that when ever some bad person died and sometimes it could also be a good person, the Romanians got a grave and dug a hole and put the body inside.

But instead of putting dirt on the bodies, they took what's called Iron Stakes and they put them into the bodies and into the grave so that the "Undead" wouldn't be able to come back alive from their grave.

Not Everything Is True

Later in time Hollywood heard about Vampires and started taking advantage of what they could do and they started making up rumors of fake things that they could do and they even started to make up fake legends about them. FAKERS!

No vampire can walk on walls or ceilings!

Also they cant turn into bats. Vampires do not die from the sun! That is a really big myth! I know!

(On TV show Called Fanboy and ChumChum at day time a Vampire dies and turns into bacon! Trust me that does not happen in real live. I know.)

And one more thing is a BIG myth! Its called Garlic. Garlic does not kill Vampires! Really... I don't ever want to meet the dunce that came up with that idea!

But some of the facts are still real.

Vampires cant see them selves in mirrors.

They do suck blood and wear black cloaks. They live in big castles and their all time enemy is Where-Wolfs. They both HATE each other.

Home-Sweet-Home

Vampires used to be all around us. And they still are!

But we just cant see them. You know I think of finding them as a big game of where's Waldo. Also a very good reason is that now they're all really in their home town... Europe.

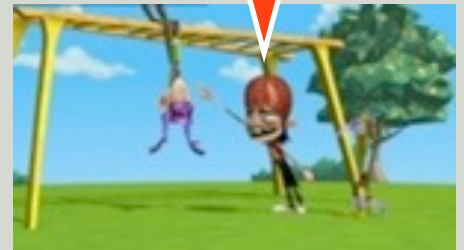

Vampires have been found in Europe many times, or that's what I have heard. They have been found in Maine, France, Germany, Romania (Home town. Obviously!!!) And Spain. They live there for 2 main reasons.

One reason is that big castles are very common and the second reason is that they can wear big traveling cloaks and they wont be noticed!

Vampires are pretty amazing. Wouldn't you say.

Just don't get bit and you'll have a Fang-tastic day!!!:)

Your
NOT a
Vampire!

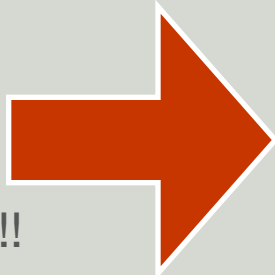

Glossary

Vampire: A un-dead being that has Fangs and hates the sun-light

Fangs: 2 Teeth that Vampires have and that are much sharper then normal teeth. They are made for biting into things

Cloak: Clothing that people used to wear. Its really a black cape with a hod.

Cloaks!!!

**NOT
Real!!!**
