

BORA BORA

A place that has unique features, outstanding beauty, and will leave you with happy memories!

I have been to many places in the world. But one of the best places I have ever been to was Bora Bora. Being there was something so beautiful and so new – something I had never seen before. The beautiful trees, the turquoise blue water, the lovely underwater animals, the mountains, the plants and greenery, and the luxury was not something to forget! Lush tropical mountains and valleys bloomed with plants and greenery. The bright sun shined on the pure blue ocean water, filled with unique marine life. There were once-in-a-lifetime activities like jet-skiing, snorkeling, and boat rides in the South Pacific Ocean. From the overwhelming scenery to the extravagant water bungalows, Bora Bora still stands first on my “awesome vacations” list!

The things you can do at Bora Bora. . . the list would never end! Everyday there is a Kids' Club where you can draw, make creations, play, or rest. There are also spas in which you can get heavenly massages! Kids can get an unlimited amount of smoothies and ice cream – for free! This you can get at one special place to eat at Bora Bora in which they serve special foods of the Tahitian culture. Have I mentioned that the coconuts there are pure and scrumptious? You can tell that they've been taken right off the coconut trees. There is actually have a wide variety of trees. Trees like palm trees, orange trees, etc. There are so many things you can do or get to experience in Bora Bora – things that you can't get to do in a lot of other places.

Bora Bora is the most unique place I have been to. I have never seen the beautiful landscapes anywhere else. Seeing the photos in this photo essay will make you fall in love with this place in Tahiti, there's no doubt. . .

The beautiful trees and flowers stand out next to the Bora Bora Saint Regis hotel pool.

This is my mom. She stands next to our private, small, and cozy pool.

From the airport, I saw Bora Bora in the distance. I had never been there before, and I was eager to get there. To get on the island, we had to travel by boat.

While we were on the boat, I wanted to catch a picture, because the sight was beautiful. And this is the picture I took.

Bora Bora can be beautiful, but on a nice hot day, it just makes you want to sit in a chair and relax!

This is a picture of some amazing coral that was in the South Pacific Ocean!

When I was snorkeling in the South Pacific Ocean, I got to do such shocking things! I actually got to touch harmless sharks! And I took many photos and videos, so that later, my memory would be with me.

I stand near the snorkeling area,, eager to change into my snorkeling gear and go snorkeling for the first time.

At my second-last day of being at Bora Bora, I got to go jet-skiing. It was so awesome! I could feel the wind blowing on my face, as I sped through the pure blue water.

On my last day of Bora Bora, I was really sad. But while we were sailing away, I took one last look and put on my best smile. I knew this trip would leave us with amazing memories.

When my family and I went snorkeling in the South Pacific Ocean, we got to go in the water and touch the creatures. It was a once-in-a-lifetime experience. I got to touch and take pictures of STING RAYS! It was amazing! I could feel their scaly tail slide down my leg.
