BY BEN GANZ

WHY I CHOOSE THIS TOPIC

Dogs are important to people in many ways. I loved my dog but sadly a couple weeks ago she passed away. My dog was special to me because whenever we played sports she wanted to get in the action and she had sass if people went too close to her. Since my dog died I wanted to know why other people's dogs are special to them like how my dog was special to me. Other people's dogs are special to them in many different ways and all dogs are different.
