

My Grandparents' House

By: Ilias Papageorgiou

To you, my Grandparent's house is just another "ordinary" vacation house in Huntington, Connecticut.

You can play in the back yard all year long, and cool down in the pool during the summer.

You can play with the family dog, Bella. She's a black lab

You can play on the jungle gym all day long.

You can play Xbox all day long.

You can chillax and also watch TV with the people you love.

You can sleep in the room designed just for my family.

You can be loved and cared for, by these wonderful people. My grandparents.

To you, my Grandparent's house is just another "ordinary" vacation house in Huntington, Connecticut. It has a back yard, a pool, a pet, a jungle gym, a living room and a few bedrooms.

To me and my family However, my Grandparents' house is a second home.

It is a place where many wonderful memories were formed, where we all feel safe, and comfortable.
