

# Lego Bricks

By Nathan Joy

Old Kirk Chrisriansen first made the Lego piece. Nowadays, the Lego group makes Legos. Old Kirk Chrisriansen first started the Lego group. In the beginning, Legos were made out of wood. At first, Legos were not popular. But, over time, people got crazy about Legos.. The Lego patent in use today was made in 1989. The Lego design used today was made in 1958. To make Legos, you would use a plastic called Acrylonitrile Butadiene Styrene (ABC). Recently, Legos were introduced into the national hall of toy fame. You can make unlimited things out of Legos. Have fun!

## *A Lego Brick.*

This is a standard Lego brick.

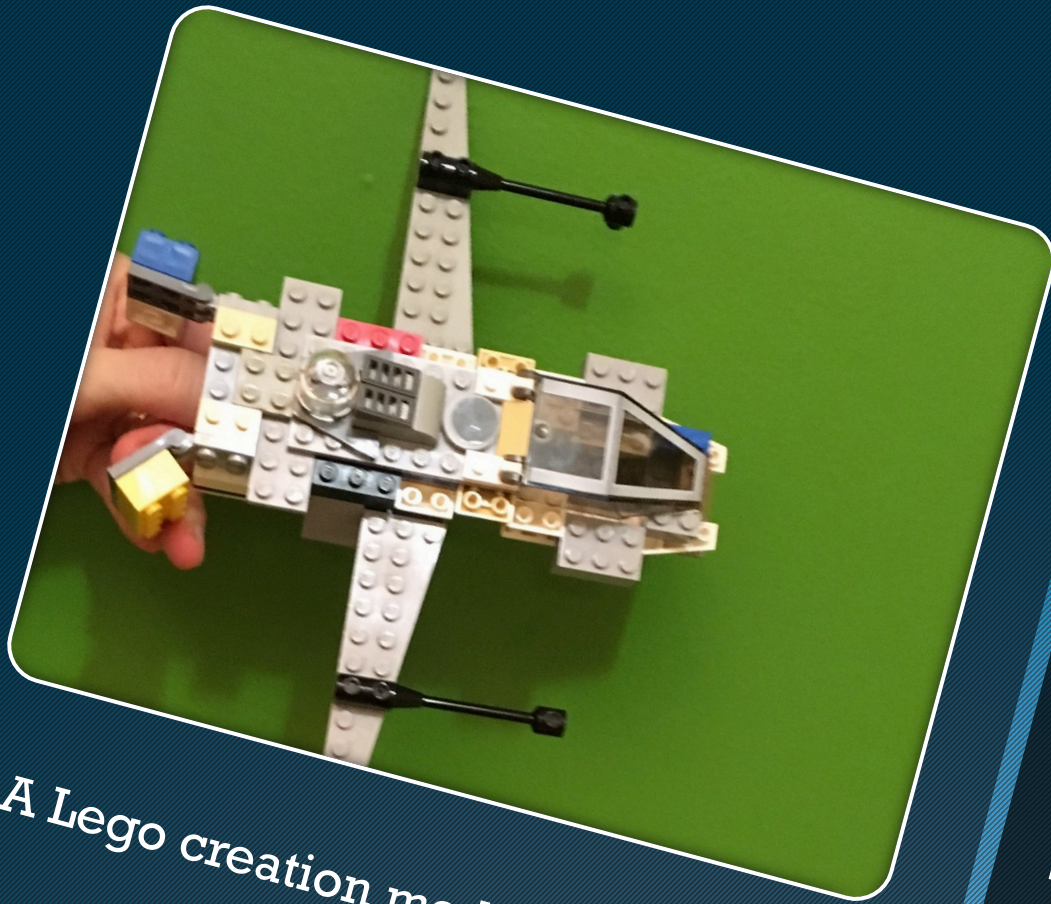

Legos can be organized!

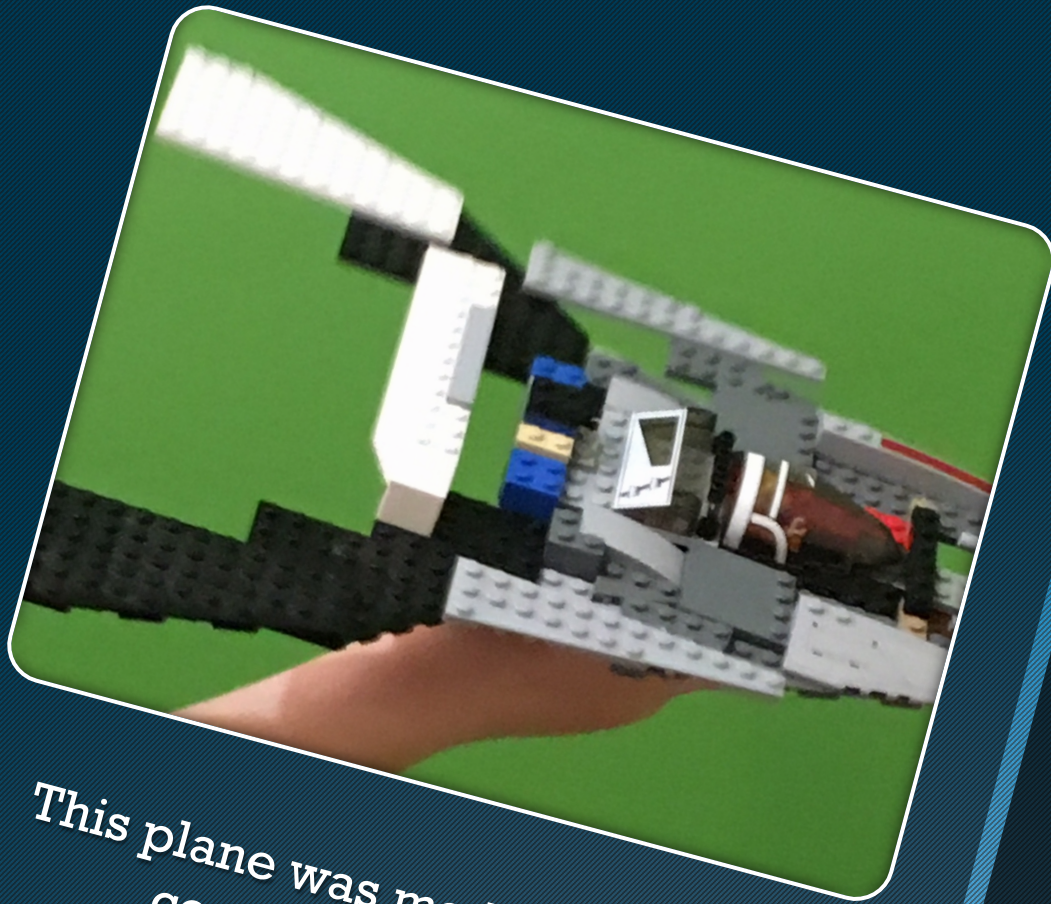

*These are Legos  
Organized Into Bins*

A Lego creation made from simple pieces.

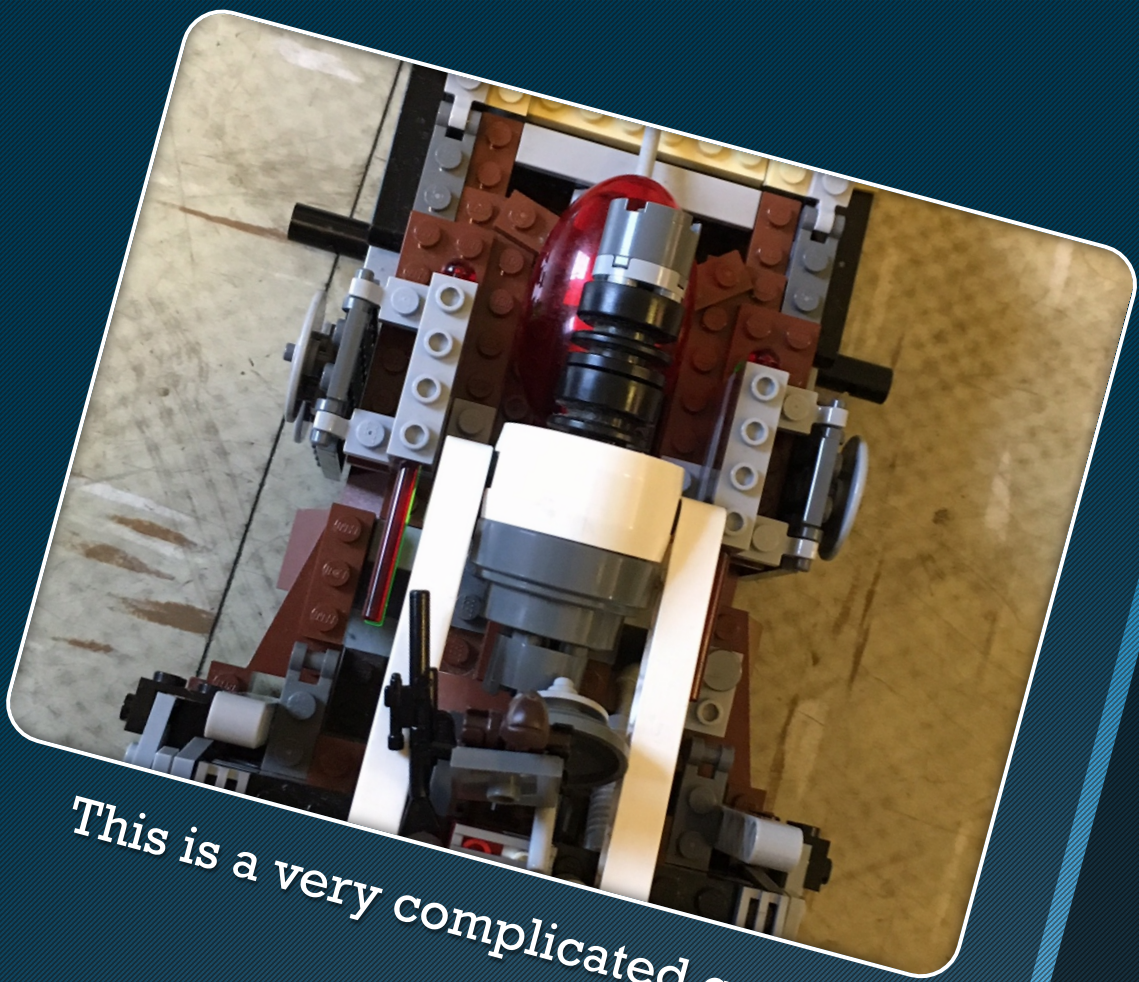

*You can Make  
Things out of Legos!*

*This plane was made from more complicated pieces.*

*You can Make More  
Advanced Things.*

This is a very complicated creation.

**This one Required  
Special Pieces.**

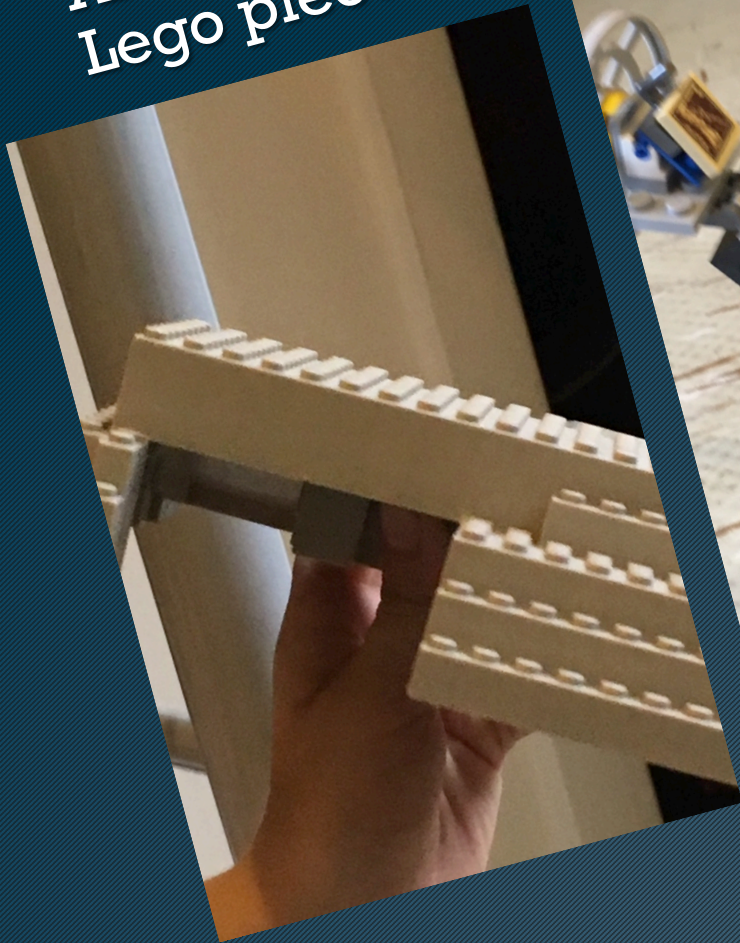

*These are Some  
Nice Inner  
Workings!*

An inspiring  
Lego piece.

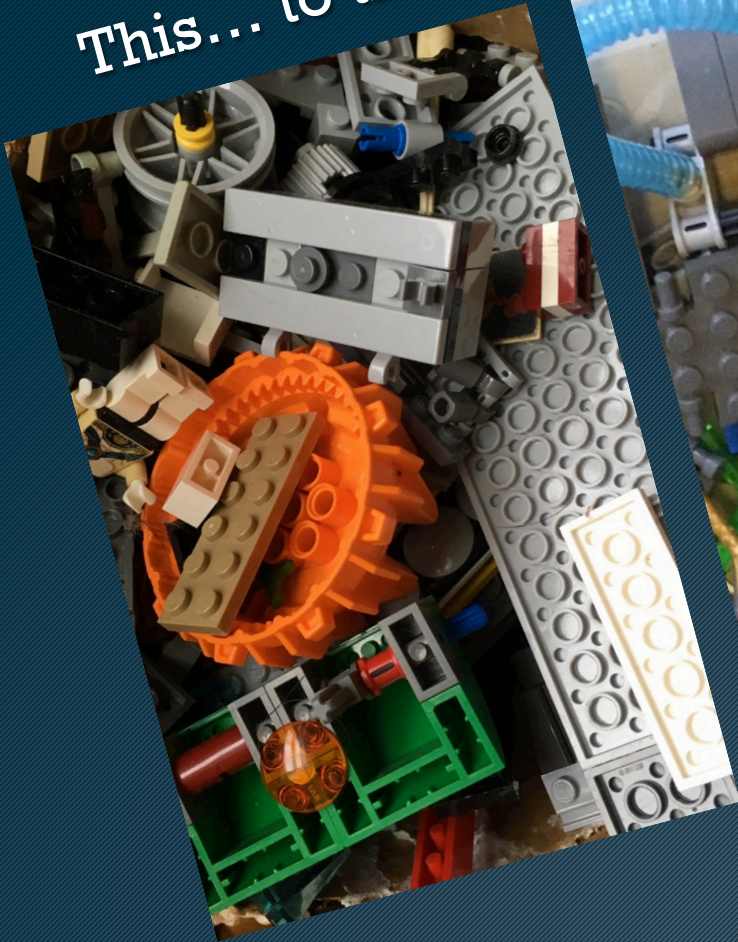

This was not inspired  
by that! It was inspired  
by dinosaurs.

Inspired!

This... to that.

Looking through  
things can work.

A Big Change.
