How to Treat your dog like Family

How you have to groom a dog

It depends what dog you want and how much grooming you're willing to do, such as this poodle.

DOGS AND THEIR WINTER CLOTHES

When it gets chilly and cold outside, (Sounds quite familiar) your dog needs a sweater.

SHOTS AND SHOES

Every dog needs their vaccination and their shoes for protection against disease and hurting their paws.

DENTAL PLANS AND BEDS

Choosing your dogs' food could effect his/her dental health. Here, my dog Luc is posing next to his favorite dental treats, YEAH!!!

Every dog needs its' bed, unlike mine. Luc, just like any other kid never wanted to sleep in his bed!

PLAYING WITH YOUR DOG

If you're going to get a dog you have to know your activity level. Every dog needs toys so if its alone a lot it doesn't get bored.

FOOD!

And of course the food. Your dogs' strength, speed, health and agility are different depending on the type of food you're dog eats.
