

# What sports do you play?

# Lacrosse

My brother and dad played Lacrosse in central park. The objective is to pass the ball to other players on you team and then try to score. Each player has a different position such as defense (you try to knock the ball away from the other team and prevent them from scoring. If you play mid field your job is to stop them from scoring and try to score. If you play striker you try to score. If you have the most goals at the end of the game you win.

# Frisbee

When I play with a Frisbee I like to dive for it. You can play games such as Cam Jam which is a 4 player game. There is a slot and a hole so the Frisbee can go in. If it goes in the slot you win. One person throws the Frisbee while the other wants it to hit the can or go in. The first team of 2 to get 21 points wins.

# Football

Football is an entertaining game to watch. You can run or pass the ball. You have 4 downs to get ten yards. You try to score in the other teams end zone while they try to get the ball. A touchdown is worth 6 points. A field goal is 3. An extra point is one and a two point convention is worth 2 points.

# SOCCER

In this game the objective is to try to score. There are different positions such as goalkeeper, defense, midfield and striker. There are two half's which are each 45 minuets. There are 90 minuets the whole game. In soccer you want to get the best shot on goal possible and keep possession. Midfield kind of controls the game because there job is to play offence and defense.

# Basketball

With 4 quarters and 48 minutes the objective is to get the ball into the hoop. On each team there are 5 player on the court at all times. The positions are point guard, shooting guard, small forward, power forward and center. You can get 1 point, 2 points, 3 points and 4 points. If both teams have the same amount of points then the go into overtime which is 5 minuets and they keep doing that until one team has more than the other.

# Baseball

When the team has to get 27 outs in 9 innings the game can take a long time. The positions are pitcher, catcher, first base, second base, third base, shortstop, left field, right field and center field. The objective is to score more runs by the end of the game. If it's a tie they play until someone wins. The away team bats first and the home team bats last.

# Volleyball

The objective of the game is to hit the ball over the net and try to make them not hit the ball back. You can not catch the ball but you can pass it. Most of the time girls play it. There are some strategies like to spick the ball so they can't hit it back. You get a point if they don't hit it back to you or if they don't hit the ball over the net. If you hit it out of bounds they get a point. If you get 21 points you win.

# Conclusion

Since some sports are more popular than others they get played more. In the USA Basketball, Football, Hockey and baseball are the most popular sports for men. But around the world soccer is the most popular sport to play and to watch. Girls in the US like to do gymnastics or play volleyball. In the US we call soccer, soccer but around the world they call soccer football. Also around the world a popular sport is rugby. Every sport is fun some are more popular than others.
