At Carl Schurz's park they have beautiful flowers all over like near the river by the parks also growing in the ground. And they have these beautiful purple lilacs at the park. And they have lots of poppy flowers in all different colors. They also say there is a flower called the penny flower and that it stands for romance and beauty. Also some of the newest flowers they have are roses red roses pink roses and white roses, and they have these purple daffodils and these little purple and pink flowers. Did you know every Saturday at Carl Schurz Park they have a bunch of volunteers' coming to the park and planting flowers to make the park more beautiful? Also did you know that Carl Schurz's parks conservancy is the oldest one? And that there are more then three gardens in the park.
